Let the Sun Rise

by War Eyes

Verse 1

Woke up
In free fall at 33,
Moved to the city
With the ground rushing up at me,

Spent a lonely Christmas with my folks,
Every small kindness aches
When your heart is broke

Chorus

Let the sun rise,
Look into your eyes,
Every single trial,
Led me to you,

I've lived a hundred lives,
Chasing shadows in the night,
I fumbled towards the light,
It led me to you,

Verse 2

Struck out,
In random sorts of ways,
Made acquaintance with lonely company,
I learned to dance,
To heal a lover's pain,
Spin and spun and sang my blues away,

Chorus

Let the sun rise,
Look into your eyes,
Every single trial,

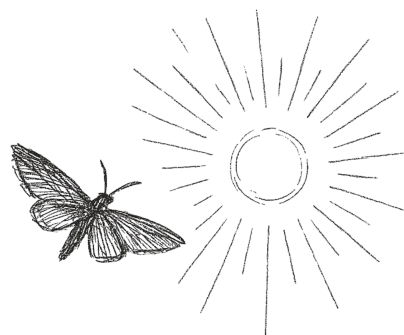

Led me to you,

I've lived a hundred lives,
Chasing shadows in the night,
I fumbled towards the light,
It led me to you,

[guitar solo]

Let the sun rise,
Look into your eyes,
Every single trial,
Led me to you,

I've lived a hundred lives,
Chasing shadows in the night,
I fumbled towards the light,
It led me to you,

Following the Rules

by War Eyes

Verse 1

We got our uniforms,
In beaten blacks and blues,
For following the rules,

And the more you give,
The more they'll take from you,
They'll tighten up the noose,

[bridge - guitar solo]

Verse 2

We got our dopamine,
From techno fascist bruv,
For following the rules,

You can ignore the news,
But it won't ignore you,
They'll tighten up the noose,

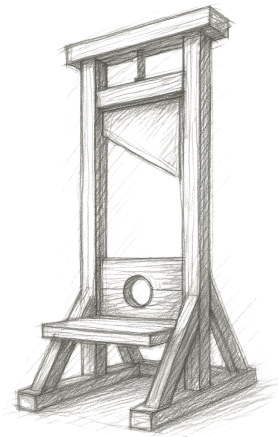

[pre-chorus bridge]

1, 2, 3, 4!

Chorus

My heart is filled with acetylene
Sharpen up the guillotine,
Make these motherfuckers bleed,
Make these motherfuckers bleed,

My heart is filled with acetylene
Sharpen up the guillotine,
Make these motherfuckers bleed,
Make these motherfuckers bleed,

Renovate

By War Eyes

Verse 1

A ruined spouse, in a ruined house,
With boards blocking out the light,

The empty halls and the peeling walls,
He'll burn it down to survive,

Broken glass frames a broken past,
A photo of better times,

The way we go is the way we know,
What's the point of being alive?

[Instrumental]

Verse 2

A ruined girl,
In a ruined world,
Filled with assholes, cheaters, and lies,

The errant stalk crests the planter box,
Better times they darkly remind,

Pull the plug from the shattered sink,
She'll burn it down to survive,

The way we go is the way we know, what's
the
Point of being alive?

[guitar solo]

[Bridge to Outro]

Pull the plug from the shattered sink,
She'll burn it down to survive,

The way we go is the way we know,
What's the point of being alive?

[Outro x4]

You pulled my boards down,
In the ruins found
A fire burning and a
Heart that was still beating

You pulled my boards down,
In the ruins found
A fire burning and a
Heart that was still beating

You pulled my boards down,
In the ruins found
A fire burning now
In the ruins found,

A fire burning
And a heart that was still beating

Cloudburst

by War Eyes

Verse 1

The air's magnetic before the flood,
The taste of iron,
In your mouth and in your blood,

The monolith looms large above,
Threatening everything and everyone you love,

Verse 2

The water's rising you stand alone,
The birds are silent,
In the broken sky have flown,

Just a spec in howling blows,
Marching forward
On this moor of grass and stone,

Bridge

Despite its darkness
Despite its shape,
Despite its malevolence,
I won't teach my heart to hate,

Despite its darkness,
Despite its tone,
Despite its tortured soul,
I know something it don't know,

Chorus

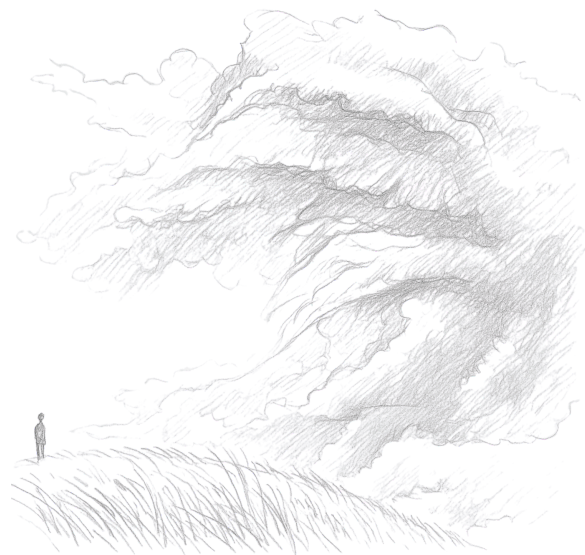

Is it time to say goodbye?
To this paper cut-out,
Of my old life,

Should I disarm my weapon eyes?

That cannot see beyond the darkness to the sky

Is it time to say goodbye?
To this paper cut-out,
Of my old life,

Should I disarm my weapon eyes?
That cannot see beyond the darkness to the sky

Tzouhalem

by War Eyes

Verse 1

The river runs,
Beneath the bridge
Into my town,

The mountain sun
Is late to rise
And early down

Across the bay,
A little house
Sits on a hill,

And on the way,
There's cherry trees,
And farmer's fields

Chorus

I'm late to get home
To the one that loves me,
For who I am and what I've done,

Stand in the shadow
Or walk in the sun,
Earn the love that you have won

Verse 2

Long ago,
They raised a cross white and large,
So down below,
They wouldn't forget who's in charge

We see the days go by
The tide will rise fast and high
And I'm

Chorus

Late to get home
To the one that loves me,
For who I am and what I've done,

Stand in the shadow
Or walk in the sun,
Earn the love that you have won

Stand in the shadow,
Or walk in the sun,
Earn the love you have won
